SIDI KRIR UNITS 3 & 4 POWER PROJECT
RECOGNITION OF JOBSITE PERFORMANCE
ELECTRO TECHNIQUE Co.

31 January 2002

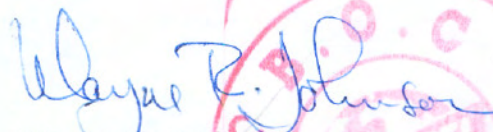

This is to certify that the **Electro Technique Co.** performed the below mentioned testing and commissioning activities at SIDI KRIR Units 3 & 4 Power Project (2 X 365 MW) as a subcontractor for Bechtel Overseas Corporation (Contract no. 24198-TSA-0003). This included supplying all of the required electrical test equipment from 01 September 2000 through 31 December 2001.

The following activities were carried out:

- Testing, commissioning & startup of the Main and Auxiliary Transformers.
- Testing & commissioning of many of the protective relays.
- Testing, commissioning & startup of the 6.3 Kv switchgear.
- Testing, commissioning & startup of the 6.3 Kv & 400 Vac motors.
- Testing, commissioning & startup of the 380 Vac load centers & motor control centers.
- Testing & commissioning of the MV & LV cables.
- Testing, commissioning & startup of the cranes, elevators, HVAC systems & rollup doors.

The work was completed to our satisfaction under a very tight schedule and in a professional manner.

I wish them all the best for their future endeavors.

Wayne R. Johnson
Project Startup Manager
